Professional Diploma, Software Engineering, *Grade: A+*

Feb 2023 - 2024

- *Relevant Coursework: Web/Database/Android Application Development, Object Oriented Programming, System Analysis and Design, Relational Database Management System (RDBMS), SDLC*

EXPERIENCE

Develop E-Commerce Platform

Mar - Apr 2023

Developed a user-friendly school uniform shopping web page using HTML, CSS and JavaScript, implementing essential features like product listings, shopping carts, and checkout to enhance the online shopping experience.

Engineered Voting Application for Customer Insights

Aug - Sep 2023

Constructed a voting application using C#, MySQL, and WinForm GUI, enabling customers to vote for their favorite coffee varieties while tracking preferences to generate targeted insights and statistics.

Built Blood Bank Data Management System

Sep - Oct 2023

Engineered a PHP application for managing blood donor information, featuring secure user authentication and robust functionalities for adding, searching, updating, and deleting donor records.

Mobile Application Development

Oct - Nov 2023

Designed a user-friendly mobile app using Android Studio based on Java, facilitating a smooth question-answering process that seamlessly integrates features such as time limits, inspections, evaluations, and performance tracking, enhancing user engagement and promoting effective learning.

Designed Virtual Gallery

Nov - Dec 2023

Utilized the open-source A-Frame framework to create a virtual corridor that combines classical art with modern technology, enabling immersive 3D and VR experiences. This project enhances user engagement through realistic visual interactions, bridging the gap between traditional artistic expression and contemporary digital innovation.

Enhance School System (Financial Management)

Jan - Apr 2024

Enhanced the School System by integrating a Financial Management function using PHP and a MySQL back-end, deployed on IIS. Implemented client-side validation with JavaScript and improved the interface's appearance and responsiveness using CSS and Bootstrap 5, enabling features such as payment processing, record inquiries, and updates.
